For the church or parish pastor and building committee:

Please accept this letter as a strong recommendation for Mr. Steve Remmert and Remmert Studios Inc. to provide the design and construction of your liturgical appointments. I cannot express how well Steve was able to grasp the desires of our parishioners and our committee and was able to fulfill, beyond our expectations, the thoughts and ideas expressed by our group. I personally worked with Steve through the entire process and can tell you that he heard the messages and was able to transfer those thoughts to paper and then to a finished product.

Steve, as an artist, was able to produce eighteen individual pieces for St. Brendan and through it all, was able to work well with our architect and granite fabricator to make everything go as smooth as silk. Not only did the finished product surpass the expectations of our Committee, but he delivered on time!

I, as an individual and the one responsible for our renovation, and our entire committee would recommend Steve to any church or parish considering his work.

With Christ's Love,

A handwritten signature in black ink, appearing to read 'Jim Grevenites'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Deacon Jim Grevenites
